An Efficient Remedy

In all cases of Bronchial and Pulmomary Affections is AYER'S CHERRY PECIORAL. As such it is recognized and prescribed by the medical profession, and prescribed by the medical profession, and in many thousands of families, for the past forty years, it has been regarded as an invainable household remedy. It is a preparation that only requires to be taken in very small quantities, and a few doses of it administered in the early stages of a cold or cough will effect a speedy cure, and may, very possibly, save life. There is no doubt whatever that

Ayer's Cherry Pectoral

Has preserved the lives of great numbers of persons, by arresting the development of Laryngitis, Bronchitis, Pneumonia, and Pulmonary Consumption, and by the cure of those dangerous maladies. It the cure of those dangerous maindies. It should be kept ready for use in every family where there are children, as it is a medicine far superior to all others in the treatment of Croup, the alleviation of Whooping Cough, and the cure of Colds and Influenza, ailments peculiarly incidental to childhood and youth. Promptitude in dealing with all diseases of this class is of the utmost importance. The loss of a single day may, in many cases, entail fatal consequences. Do not waste precious time in experimenting with medicines of doubtful cilicacy, while the malady is constantly gaining a deeper hold, but take at once the speediest and most certain to cure,
